

PAUL FLETCHER MP
Federal Member for Bradfield
Minister for Communications,
Cyber Safety and the Arts

MS20-000423

Ms Gabrielle Trainor AO
Chair
Board of the National Film and Sound Archive
GPO Box 2002
Canberra ACT 2601

Dear Ms Trainor

Gabrielle

I am writing to outline my expectations for the National Film and Sound Archive (the NFSA) for 2020-21.

I first want to acknowledge the work of the NFSA in 2019-20, particularly in meeting the challenges presented by the summer bushfires, January hailstorm and the onset of the COVID-19 pandemic.

The Morrison Government acknowledges that the impact of COVID-19 on the arts sector is widespread and extremely serious, including the significant and ongoing business disruption being experienced by all National Collecting Institutions and their staff.

I would like to acknowledge the steps the NFSA has taken thus far to provide audiences across Australia with enhanced opportunities to engage with its collections through digital content. This has been particularly important during periods when the NFSA was closed to the public or travel restrictions have otherwise prevented people visiting its premises after they were safely re-opened.

The re-opening of the National Collecting Institutions was an important step in the re-emergence of Australia's cultural and creative economy and one welcomed by those who wished to once again experience the film and audio recordings that are so central to the telling of Australia's story.

I encourage the NFSA to consider opportunities where it can support the following government strategic priorities in 2020-21:

- providing national leadership and fostering collegiality within the arts sector to assist with its recovery from COVID-19;
- contributing to economic activity and recovery as social restrictions ease, particularly in regional centres, through touring and other outreach activities;
- focussing on how the NFSA's activities can further encourage social cohesion and foster diversity and inclusion;
- continuing to champion and showcase our Indigenous cultures for the education, enrichment and benefit of all Australians;

- maintaining the NFSA's financial sustainability, including through exploring opportunities to further grow private sector support and increase own-source revenue.

I note that prior to the onset of COVID-19, many of these areas were already being progressed by the NFSA. The Council and senior management should continue to foster a strong vision for the NFSA as well as develop clear and achievable objectives for its operations in 2020-21 and beyond.

As you are aware, the Government has agreed to provide the NFSA with \$5.8 million over four years from 2020-21 for the digitisation of at risk material and the replacement of emergency lighting. The Government is also providing the Office for the Arts with funding to conduct a scoping study for shared storage facilities, a coordinated analysis of strategic asset management plans, and a Work Health and Safety audit of National Collecting Institutions facilities. This work, which will be undertaken in 2020-21, should assist the NFSA and other National Collecting Institutions with their strategic planning.

I encourage the NFSA to continue to work cooperatively with the Office for the Arts and other portfolio agencies, particularly the other National Collecting Institutions, in contributing to the Government's policy priorities. I also ask that you continue to alert me and the Office for the Arts to any significant events or developments related to the NFSA's activities or functions.

This Statement of Expectations and your corresponding Statement of Intent form an important component of the NFSA's governance framework. As such, I would anticipate both being public documents. The Statement of Intent should focus on what is achievable with the available budget in 2020-21 to ensure it does not unduly raise public expectations. I have written in similar terms to all arts portfolio agencies, and have copied this letter to the NFSA's Chief Executive Officer, Mr Jan Müller.

I wish the NFSA's Board and senior management every success in meeting its outcomes and objectives for 2020-21.

Yours sincerely

Paul Fletcher
