- Titles are provided for one screening only and titles are not permitted to be screened on a loop.

- The NFSA reserves the right to specify projection particulars or decline requests to loan items.
- Loans cannot be made to individuals for private use or home screenings or for fundraising activities.
- **Failure to adhere to these terms and conditions or failure to pay invoices may result in termination of registration.**

Insurance

- It is required that borrowers hold insurance to cover loss or damage to NFSA NTLC titles in their care and damage to titles in transit.
- Borrowers should ensure that their insurance covers loss of or damage to titles screened at third party screening venues.
- Borrowers agree to show the NFSA proof of insurance upon request.

Educational use

Educational Institutions applying to access titles for educational purposes (as permitted by the exception under s.28 of the Copyright Act or if it is an "educational institution" as defined under s. 10 of the Copyright Act), must complete the Educational Registration Form supplement. This is available on request.

Care of NTLC titles

Borrowers are responsible for NTLC titles for the duration of the loan period, including during outward and return transit.

- Film prints should not be rewound.
- Film prints should be wound onto a plastic reel (not metal) of the original size when projected and shipped flat to minimise edge damage. NFSA will supply empty reels of any size on request.
- Borrowers may be required to pay for the repair or replacement of a collection item in the instance where an item is lost or damaged. Upon return of the damaged item, the NFSA will determine whether the item needs to be replaced or repaired and advise the appropriate cost to the borrower.

Return of titles - DVD or 16mm film print

It is the responsibility of the borrower to ensure the safe and timely return of items to the NFSA.

- Titles should be returned no later than two weeks after screening and securely packaged using original boxes and packaging material. The barcoded return label (provided with the loan) can be attached to the package. Use of the return label will result in an additional flat freight fee. Otherwise, borrowers will need to make their own traceable freight arrangements at their expense.
- Borrowers are required to return titles via a traceable method of postage such as Registered Mail, Express Post or a commercial courier. The relevant tracking information is to be supplied to NFSA NTLC staff.
- A late fee may be charged for any overdue titles.

Damage and repair of NTLC titles

Should damage to NFSA titles occur, borrowers should not attempt a repair, but should include an explanation of the nature and cause of the damage on the *Screening Report*

- If an item arrives in a damaged state, the borrower must inform the NFSA immediately, otherwise the borrower will be charged for the repair or replacement of the title.
- For further information, refer to the [Information for NFSA Screening Loans Borrowers: Loan Damage and Insurance](#).

NFSA acknowledgement requirements

Any publicity, advertising or screening notes, whether printed or in online or electronic form, should acknowledge each title loaned from the NFSA with the following credit: **'Courtesy of the National Film and Sound Archive of Australia'**.

- The NFSA prefers acknowledgement to be accompanied by the NFSA logo wherever possible. NTLC staff can provide borrowers with a digital copy of the logo.
- NFSA film prints contain a film leader with the NFSA logo and the following attribution; 'From the collection of the National Film and Sound Archive of Australia'. This leader, and any additional sponsor or collection acknowledgements must not be removed and are to be screened preceding the film.
- Footage of Aboriginal and Torres Strait Islander peoples accessed from the NFSA's NTLC titles are subject to the terms and conditions of our *Indigenous Cultural and Intellectual Property (ICIP) Guidelines*.
- A warning is to be included when footage is screened to the public as follows: *"Warning: Aboriginal and Torres Strait Islander viewers are advised that the following program may contain images and/or audio of deceased persons"*.

This information is for clients wanting to access NFSA NTLC titles for non-theatrical screening purposes only.
