

## Australian Popular Music Catalogue – Vinyl Records

As an avid collector for 40 years of Australian popular music on vinyl, I felt it time that a comprehensive catalogue documenting all releases by Australian artists should be made available to the record-collecting public. In the past there has been nothing that addresses the entirety of Aussie music on vinyl. So, after a painstaking 4 years of research, I have compiled what I believe to be the first reference of its kind based purely on Australian artists on vinyl record.

The catalogue has been compiled using many and varied sources of information. Research was done with the help of various original record company catalogues, internet sites such as Discogs, 45cat, Popsike, etc. Plus, the Australian Record Labels catalogue [Michael De Looper], Milesago, Global Dog and various other sites. Australian Top 40 charts were also used. Research was done with magazines; reference books and newspapers of the day and a great deal of thanks goes to the NFSA who kindly offered access to their amazing database and archives.

The catalogue is really a listing of Australian artists who recorded on vinyl records from around the early 1950s through to the early 2000s. There are some listings for those artists that started their career recording on 78rpm shellac in the 1940s so some of these have also been included to offer a complete discography for those artists. i.e. Slim Dusty, Reg Lindsay, Frank Ifield, Tex Morton and the like.

The catalogue includes the following styles/genres of music:

- Rock
- Pop
- Male vocal
- Female vocal
- Country & Western
- Psych/Surf/Garage rock
- Folk
- R&B
- Indie
- Australian punk
- Australian blues
- Heavy/Hard Rock
- Pop Instrumental
- Easy listening

It does NOT include:

- Jazz
- Gospel/Christian
- Opera
- Classical
- Comedy
- Spoken word/Poetry
- Orchestral
- Big band>Showband
- Various artist compilations
- Demonstration recordings
- TV/Radio jingles and Ads
- Interview record

Please note that the catalogue is for vinyl records only and there are no listings with the following formats:

- Cassette Tape
- Reel to reel tape
- Compact Discs
- Picture Discs
- Shaped discs
- Metal discs
- Acetates
- Video disc

The listings are in strict alphabetical order with the surname of the artist being the method used. Reading across any page:

Artist/Group	Format [45, EP or LP]	Song/EP/LP title	Year of release	Record Label	Catalogue number
--------------	-----------------------	------------------	-----------------	--------------	------------------

Where a record label is unknown then 'Private Label' is entered.

There are many artists that were born in another country but made their careers in Australia. For example, Frank Ifield, Dinah Lee, Tommy Leonetti, Bee Gees, Johnny Devlin, Max Merritt, Marcia Hines, Olivia Newton-John, etc. We have classified these as Australian artists and as such are listed in the catalogue.

I believe that the catalogue is as accurate and comprehensive as could be, allowing for the possibility of an obscure release slipping under the radar.

Many thanks,  
Ken Grose
